

ENVIRONMENTAL ATTRIBUTES AND CERTIFICATIONS

TERMS OF USE ON PRINTED DOCUMENTS

THE FOLLOWING GUIDELINES MUST BE RESPECTED IN ORDER TO USE THE LOGOS ON YOUR PRINTED DOCUMENTS.

THE ENVIRONMENTAL ATTRIBUTES AND CERTIFICATIONS LOGOS FOR CASCADES FINE PAPERS:

- may only be used on Cascades certified papers
- must be referred to in a statement associating them with the paper, in order to confirm the objects certified (see examples below)
- must not be altered in any way and must remain in their original proportions
- must be of a sufficient size to make their text legible

EXAMPLE 1	EXAMPLE 2
<p>Printed on Rolland Enviro100 Print, which contains 100% post-consumer fibre, is manufactured in Canada using renewable biogas energy and is certified EcoLogo, Processed Chlorine Free and FSC Recycled.</p> <div style="display: flex; justify-content: space-around; align-items: center;">      </div> <p><i>(Only FSC® certified printers may use the FSC label)</i></p>	<p>Printed on Rolland Opaque50, which contains 50% post-consumer fibre, is manufactured in Canada using renewable biogas energy and is certified EcoLogo and FSC Mixed Sources.</p> <div style="display: flex; justify-content: space-around; align-items: center;">     </div> <p><i>(Only FSC® certified printers may use the FSC label)</i></p>

AVAILABILITY OF LOGOS

 	<p>These environmental attribute logos can be downloaded at www.cascades.com, under Fine Papers / Attributes and Certifications/ Download environmental logos.</p>
	<p>This certification logo can be downloaded at www.cascades.com, under Fine Papers / Attributes and Certifications/ Download environmental logos.</p> <p>A printed sample must be mailed to the EcoLogo Program (171 Nepean St. Suite 400, Ottawa (ON), K2P 0B4).</p>
	<p>This certification logo can be obtained by completing the form downloadable from the CFPA web site, under the Labelling Marks section. One completed, it must be send by fax to 847-658-3152. Requests are usually processed within 24 hours and the monetary contribution is voluntary.</p>
	<p>This certification logo from Forest Stewardship Council® attests the chain-of-custody of the paper, taking into account all transformation steps, right up to the last one, namely, the printing. Thus, only the printer's logo may appear on a printed document. Only FSC® certified printers may use the FSC label.</p>

PRODUCTS	ATTRIBUTES	CERTIFICATIONS
	 	   
Rolland Enviro100	✓ 100%	✓
Rolland Opaque50 / Rolland Hitech50	✓ 50%	✓
ReproPlus50	✓ 50%	✓

For questions regarding the use of the environmental logos, please contact Julie Loyer at 450-569-3963 or at Julie_loyer@cascades.com.

ATTRIBUTES AND CERTIFICATIONS

RAW MATERIAL

POST-CONSUMER FIBER

Fiber that has been recuperated entirely from paper used by consumers through recycling programs. It does not include mill broke.

POST-INDUSTRIAL FIBER

Fiber that has been recuperated from paper used in industrial applications. The post-industrial term corresponds to the FSC pre-consumer definition and does not include mill broke.

FSC

Forest Stewardship Council Certification which supports responsible use of forest resources.

FSC Recycled certifies the 100% post-consumer content of a product.

FSC Mixed Sources certifies that the product comes from well-managed forests, controlled sources and recycled fiber.

ENERGY

BIOGAS

Paper manufactured using a gas produced from the decomposition of waste in a landfill. Biogas, a sustainable and local energy, is transported to the mill by pipeline and reduces greenhouse gas emissions

MANUFACTURING

ECOLOGO

Certification that identifies environmentally friendly products. Criteria are greenhouse gas emissions, water and energy resources consumption and use of recycled fiber. Cascades is the only Canadian fine paper manufacturer that is certified.

PROCESSED CHLORINE FREE

Certification from the Chlorine Free Product Association – CFPA.

Paper manufactured with no chlorine.

ELEMENTAL CHLORINE FREE

The virgin fiber included in the paper has been bleached without chlorine, but with a chlorine derivative. The recycled fiber part used in Cascades fine papers contains no chlorine or derivative.

ATTRIBUTES

PERMANENT PAPER

Alkaline or neutral paper that can resist aging for more than 100 years under normal warehousing conditions.

Criteria and certifications established by the American National Standards Institute – ANSI.
