

Cascades Containerboard

Know-how
that makes
the difference

Pioneers of recycled containerboard

At Cascades, we have been perfecting our knowledge of recycled fibres since 1964, always with a single goal in mind: producing high-quality containerboard that will help your operations perform more efficiently through innovative characteristics and board combinations.

We offer a variety of products that respond to our customers' many needs. Our product portfolio consists of a wide range of liner, fluting and specialty papers made from up to 100% recycled fibres.

We produce more than 2 million short tons of paper per year, positioning us as the:

**2nd producer
in Canada***

**6th largest
producer in
North America***

Do right, do better.

At Cascades, sustainability is in our DNA. With and for our partners, we continue to uncover the full potential of materials, people and ideas. We've been pioneers since the start and work tirelessly toward sustainable development.

With corporations setting objectives to reduce their environmental footprint through specific actions on packaging, Cascades is your best ally, now more than ever. We will help you replace virgin containerboard with recycled papers and create efficient board recipes that diminish your impact.

Cascades is more sustainable than the North American pulp and paper industry average*.

42% less greenhouse gases emitted

4.3x less water consumed

2.4x less energy used to manufacture our products

The strength of expertise

For more than half a century, we have been building our expertise and techniques to develop a strong recycled paper that gives you the converting speed you need without compromising on quality.

True to our nature, we continuously explore ways to find the best containerboard solutions. Our portfolio of high-performance, innovative papers offer unique characteristics and performance, which in turn contribute to innovative containerboard recipes.

Control of raw materials

The secret of high-performance recycled papers lies in the advanced management of paper for recovery.

Cascades Recovery+ plays an important role in helping Cascades produce great containerboard paper. Over the years, they have developed a network of trusted suppliers, and this ensures a constant flow of high-quality fibres to our various manufacturing operations.

From the recovery of materials to their transformation into new products, Cascades closes the loop of the circular economy.

Mastering fibres

With Canada's largest private research centre for the pulp and paper industry, our team of dedicated experts is always perfecting their knowledge of recycled fibres. Their goal? To produce high-quality containerboard for efficient packaging solutions that bring your customers satisfaction and peace of mind.

A wide range of papers to meet your customers' requirements

Linerboard

Wide range of light to heavy weight recycled linerboard.

Cascades
XP

Cascades
enviroWhite™

Cost-effective, recycled paper that offers superior stacking strength.

From light to heavy-weight, this paper made from 100% recycled fibres is an innovative alternative to virgin fibre in your packaging design.

100% recycled chlorine-free linerboard with a superior quality in terms of strength, texture, printing and consistent whiteness.

Our paper is also available in a variety of options and coatings.

Cascades offers a complete range of light to heavy-weight linerboard and fluting papers designed with sustainability and performance in mind. Our papers perform in many conditions, and help meet demand for sustainable solutions.

Fluting

Available in various basis weights, including high-performance lightweight products.

Specialty

Innovative and sustainable high-quality specialty papers.

Fluting paper made from recycled fibres or semi-chemical pulp is available in a large range of basis weights.

Variety of specialty papers that meet current and future market needs.

Our expertise at your service

Beyond your needs for containerboard, our experts will help you optimize production processes, minimize costs, and meet customer expectations. We develop the hidden potential of resources and new ideas so you obtain solutions and services that exceed your needs.

Collaborative partnership

- We carefully listen to your needs to provide customized solutions.
- We are committed to partnering with our customers to deliver value-added solutions.

Team of experts

- We have in-depth knowledge of recycled fibres and papermaking.
- We provide you assistance in optimizing and improving the conditions of use of our papers to obtain packaging solutions with the right weight.
- We help you calibrate your machines for optimal output.

Certification

Upon request, we can provide you with the necessary certifications to meet your customers' requirements.

Cascades' containerboard mills

With our five mills, strategically located in North America, we offer a wide range of light to heavy-weight containerboard to meet your customers' needs.

Containerboard

An experienced partner at the forefront of the industry

Founded in 1964, Cascades offers sustainable, innovative, and value-added solutions for paper, packaging, hygiene, and recovery needs.

Operating across North America with more than 80 production units and 10,000 employees dedicated to your success, Cascades contributes to the well-being of people, communities, and the planet.

Every day, we play an essential role in our customers' success. What makes us most proud is being able to outdo ourselves for the sake of our customers — to innovate for and with them.

Cascades realizes the full potential of material, people, and ideas.
